# Protecting People, Property and Peace of Mind

Responsive Security Services delivered on a national basis, that you can trust.

## Why Choose ARM Secure?

With over 20 years of experience, ARM Secure is a trusted name in security, providing nationwide coverage across the UK. Our expert team delivers tailored security solutions, ensuring the protection of your people, property, and peace of mind.

### Nationwide Coverage

No matter where you are in the UK, we've got you covered.

### 24/7 Protection

Round-the-clock monitoring and rapid response for total peace of mind.

### Experienced & Trusted

Decades of expertise in delivering reliable security solutions.

### Tailored Services

We adapt to your needs, offering flexible and cost-effective security.

## Always Customer Focused

Our dedicated account managers give a single point of contact for streamlined service.

- » 24 hour customer service for out of hours requests
- » Single provider for a coordinated response
- » Detailed MI and reporting across all services
- » Leverage data to make operational improvements

## Why Choose ARM

### The Complete Security Solution

Helping keep your site both safe and insurance compliant

### Streamline Operations

Streamline your security ops combining multiple services into one, with a single point of contact for a coordinated response and dedicated account manager for detailed reporting across all services.

### Enhanced Protection

Our advanced CCTV & Alarm monitoring centre with integrated artificial intelligence, reduces false activations helping drive efficiency and leaving you safe in knowledge your site is protected.

### Reduce Costs

Drastically lower your security costs, with the ability to completely remove traditional manned guards from site, whilst maintaining the same level of protection, using our virtual patrols.

### Increased Data

Alarm Response teams can then deploy officers as required without having to disturb your staff in unsociable hours, with dedicated account managers delivering detailed incident reporting.

## Our Accreditations & Certifications

Having the relevant industry accreditations ensures confidence in our customers. They know that we are doing exactly what we should be doing and to the very highest standards.

## Security Technology

CCTV Towers | RaPID | Intruder Alarm | Digital Lockbox

### Reduce costs whilst increasing your protection with ARM Secure's Technology solutions

Our security technology solutions provide a cost-effective alternative to traditional manned guarding by leveraging advanced AI-powered surveillance, remote monitoring, and smart access control.

By reducing reliance on physical security personnel, our technology minimises labour costs while enhancing security coverage, real-time threat detection, and rapid response.

This scalable solution ensures 24/7 protection at a fraction of the cost, improving both efficiency and security outcomes for businesses.

#### Reduce Security Costs

Reduce the cost of your security provision by up to 50%, when compared to manned guarding

#### Technology Never Sleeps

Unlike manned guards, technology never sleeps, never needs breaks and requires no on-site welfare facilities

#### Eco-Friendly Options

Pairing our CCTV Tower with solar panels means no need to run generators for power, reducing carbon emissions

#### In-House Monitoring

All of our technology products are monitored by our in-house RVRC based in Bristol, reducing response layers & times

## Security Technology

### CCTV Towers

#### Truly Reliable, Robust and Versatile CCTV Tower

Our state of the art CCTV towers with retractable masts offer a cost effective security solution that can replace traditional manned guarding. Four cameras with powerful integrated artificial intelligence for detection keep your site secure day or night.

#### Solar Powered Option

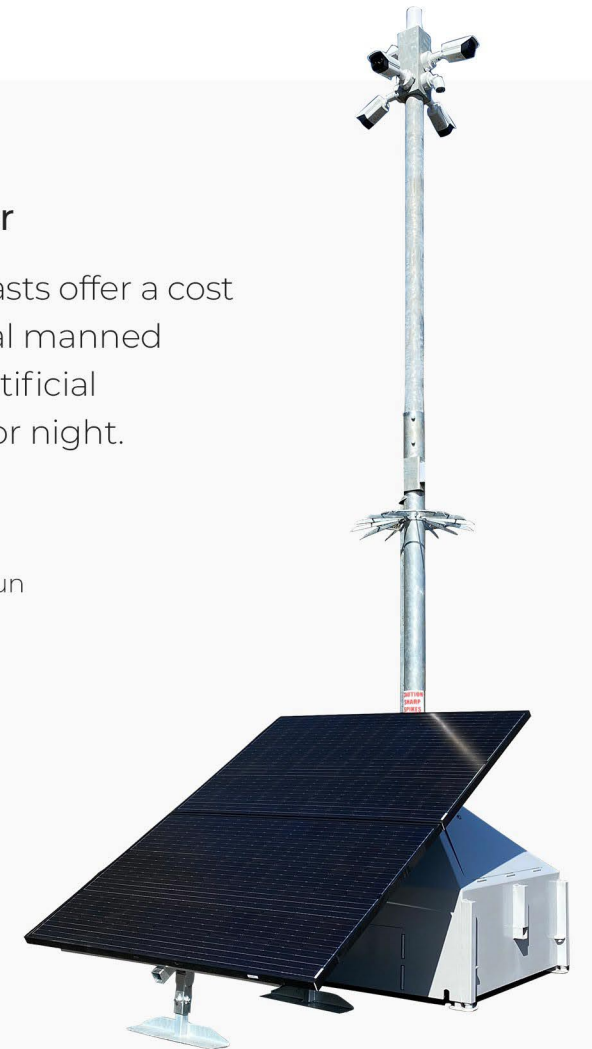

No need for existing power or network infrastructure. Our towers run on the sun. Housing powerful lithium batteries for power and 4G connectivity for monitoring, keeping your site secure 24/7

#### Up To 75m Detection Range

Complete 360 degree coverage day or night from the 4 advanced cameras mounted on a 6m retractable mast

#### Highly Visual (and Vocal) Deterrent

Provides a highly visual on-site deterrent to would be unauthorised personnel with external horn for audio challenge by our monitoring centre operatives

### RaPID

#### Rapidly Deployable Video Verification Tower

Each tower is equipped with four cameras, with a detection range of 15 metres each. Incorporating dual lens technology helps prevent false alarms and gives a total of 30 meters detection radius with just one tower.

#### Solar Powered

Powered by solar and complimented by a battery back-up system, RaPID is designed with speed and no fuss in mind

#### Extremely Small Footprint

Due to its small footprint the RaPID tower can be deployed virtually anywhere including inside buildings

#### Highly Visual Deterrent

The completely weather proofed hard body of the towers creates an excellent deterrent to unauthorised personnel

## Temporary Intruder Alarm

### Insurance Compliant Vacant Property Alarm

Make sure you are insurance compliant with our Temporary Intruder Alarm. With its internal battery for power and 4G connectivity to our monitoring centre, no site infrastructure is needed. Perfect for vacant properties where the utilities have been shut down.

Internal or External Use

Battery Powered

4G Connectivity

Add up to 100 sensors

## Security Technology

### In House Monitoring Centre

#### Industry Leading for Over 20 Years.

ARM Secure is one of the leading CCTV Monitoring companies in the UK, with our NSI Gold, BS 5979 Category II Remote Video Response Centre in operation for over 20 years.

Our whole estate is protected with the latest AI detection software, helping drive efficiency and leaving you safe in knowledge your site is protected.

This coupled with our industry leading Keyholding & Alarm Response, drastically reduces the time from intruder detection, to licensed security officer arriving on site.

## Digital Lockbox

### Unlock Convenience: 24/7 site access

Versatile secure key storage device, featuring a large drawer for storing a number of keys and access swipe cards. Managed via our cloud-based code management platform with the ability to instantly issue temporary day codes, allowing access to your site. anytime, to anyone.

#### Safe, Secure, Robust

Our digital lockbox has achieved "Police Preferred Specification" status from Secured by Design.

#### Issue Temporary Day Codes

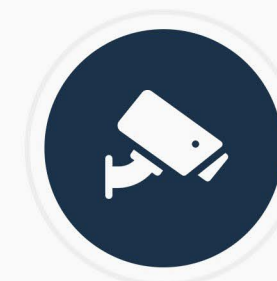

Unplanned access visit? Just ring our customer services team who will issue you a day code for instant access

#### Full Digital Audit Trail

Full digital audit trail of exactly who has been on site and for what duration, on our cloud accessible system.

#### Centrally Managed

Quickly & easily add new users, set up permanent codes or issue self-expiring temporary codes all from our robust cloud management platform.

#### CCTV Monitoring

Our CCTV Monitoring Centre is a state of the art, fully accredited NSI Gold, Category II Remote Video Response Centre. We have over 20 years experience, with the latest artificial intelligence fully integrated to increase protection and reduce false alarms.

#### Intruder Alarm Monitoring

Our Alarm Monitoring service operates 24 hours a day, 365 days a year so your property will always be under supervision. Our rapid response significantly reduces the risk of burglary, intrusion and arson on site.

#### Fire Alarm Monitoring

Fire Alarm Monitoring is critical for both commercial and residential sites. Protecting property, but more importantly, people against undetected fire. This can be especially important if the site is left vacant for any period of time, such as weekends.

## Security Services

## Security Services

### Steel Security Doors & Panels

Robust & Effective Defence

A highly visual deterrent, fully reversible and always recommended by vacant property insurers. Our steel doors & panels help keep your site safe from unauthorised access whilst vacant.

#### Steel Screens

Mitigate the risk of squatting, theft & vandals entering your site using our steel screens to cover vulnerable openings. Quick to install and an excellent visual deterrent.

#### Steel Doors

Robust steel doors that can be rapidly installed and removed without damage to existing frame when site is ready to be re-occupied.

### Perimeter Protection

Flexible Perimeter Solutions

Blocking access to vehicles and pedestrians is paramount to a complete security solution. Mitigating against the risk of unauthorised encampments and creating an unauthorised personnel.

#### Heras Fencing

Can be rapidly erected to block both pedestrian and vehicle access creating a clearly defined perimeter, aiding with detection.

#### Concrete Blocks

Essential to block vehicle access to vacant sites, mitigating the risk of unauthorised encampments which can lead to flytipping.

#### Vehicle Barriers

When added onto our concrete barrier solution allowing authorised vehicles to enter and leave site as necessary.
